#### 5. Assistance Required from Board

Early sanction of 3rd Revised Estimate by Railway Board.

#### 6. Issues of Concern

1. Project infrastructure conditions like road network, security environment is extremely difficult.
2. The working season available during the year is only 6 months.
3. Bridge No 41: Vibration on 6th span of 69.0m of Bridge No. 41 between VNGP and RGBP station:- For permanent monitoring of this bridge, a work of instrumentation of Bridge is being planned. TDC of Mar'2026.
4. Tunnel 4: Extension of portal and provision of flared wing walls of tunnel-4 at Rani Guidinliu station, Work started and likely to be completed by 28.02.2026.
5. Tupul Yard : Massive land slide in June'22 resulted in debris deposit upto 40m height. Design of protection work to be done but all works held up due to local disturbances. Tentatively planned the alignment by providing underground tunnel in slide portion with station. TDC- Mar'2029.
6. Replacement of minor bridges with properly designed major bridges in the valley between hills. Identified bridges are: Br 146 (3x30.5), Br 147D (1x30.5), Br 149B (1x30.5m) and Br. 176 (1x30.5). NFR Con with the approval of GM/NFR Con has decided for replacement of minor bridges with major bridges. TDC- Jun'2028.
7. Tunnel Portal extension: Tunnel No 18A (Portal P1). Cut and Cover of 120m is planned. TDC- Feb'2028.
8. Construction of two numbers of cut & cover tunnels (i) T-20B Length=263.5m (Ch; 80/6-9) (ii) T-21B Length=320m (Ch 82/8-83/3). Regular meeting with State Administration is being done to resolve the matter.
9. Major protection work for foundations on pier P-4 & P-5 is required in Bridge no 164. Tender for the work to be floated by 21.08.2025
10. Bridge bed level of Br. No 165 is 16m higher than the upstream at Noney Yard. TC for DDC is under finalization for taking up the work.
11. There is misalignment of tunnel No 25 with lateral shifting of 15m with overlapping ends of 127m as detected in the year 2017. Tunnel No. – 26: There is a collapse of 36m. NIT for DDC and execution of work is under process. TDC-Nov'2027.
12. The progress of the is hampering since May-2023 due to Law & Order problem in Manipur.

- Intial Pink Book Cost :- **Rs 850.00 Crs.**
- ROR :- (-) 26.44%
- Sanctioned as National Project vide **RB L/No 95/W-1/LCT/NF/1 dated 16.05.2007.**
- **BACK GROUND OF PROJECT :-**

This project was sanctioned through supplementary demands of grants for the year 2006-07. It was declared a National Project vide Board's letter No. 95/W-1/LCT/NF/1 dated 16.05.2007. Alignment was to take off from Dimapur and final location survey was taken up accordingly. But Nagaland Government asked for the revision in the alignment vide letter No. TPT/RAIL-9/97(PT) dated 15.01.2010 citing the problems of reserve forest & zoological park, very high compensation demanded by farmers & connectivity to the Ganeshnagar industrial area. Finally, the take off for the project was decided from the Dhansiri station, a station in Karbianglong District of Assam, at about 19 Km short of Dimapur & the same was approved vide Nagaland Government letter No. TPT/IST/RAIL/2011 dated 02.02.2012. Frequent law and order issues often hamper the progress adversely as there is separatist movement by NSCN(IM) and other groups. Working period in Nagaland is only 4-5 months in a year due to prolong rainy season.

- **Present Status:-** Revised Estimate amounting to Rs. 6663.20 Crs. sanctioned by Railway Board on 05.05.2022.

Status of works is as under -

**Phase-I:** (16.20 Km) (Dhansiri-Sukhovi) CRS authorisation received on 29.10.2021 @ 90 kmph.

**Phase-II:** Sukhovi-Molvom (15.42 Km) : CRS inspection completed and authorisation received @ 90 KMPH on 28.03.2025.

**Work in Phase- III :** (14.09 km) (Molvom-Pherima) is partly in plain and in partly hilly area, contains 6 tunnels (Total 6.59 km) for which contracts have been awarded. There are 10 major Bridges. Contract for sub-structure of 10 bridges have been awarded. Work is in progress in all available stretches..

**Land in Phase-IV:** (36.79 km) (Pherima-Zubza) has been acquired 99%. Land is being acquired to accommodate Curve and Straight. Longitudinal plan have been approved. Phase-IV contains intense hilly area have 14 tunnels (Total length 25.36 km), longest tunnel being 6.61 km long. There are 14 major bridges. Balance land acquisition is -2.311 Ha. work is in progress.

#### 6. Issues of Concern

1. Project working conditions related to security environment, frequent hindrances by locals and limited working season also affect the progress.
2. Tunnel No. 7 (6570 m)- is the most critical tunnel in this phase. No Adit is available for this tunnel. Heavy and sudden water ingress resulted in heavy flood. Due to Poor Geology and high-water ingress into the tunnel at multiple locations, progress of U/G excavation is slow.
3. Landslide at Ch. 44000 m to 44500 m Part of Pherima Yard. Design submitted by M/s Genstru. The slope protection scheme submitted by GENSTRU is adequate for a design life of 120 years.TAG has been formed to give recommendation by Nov'25.
4. Tunnel -9 (Length 1188m) Due to Poor Geology and water ingress into the tunnel, progress of U/G excavation is slow. Severe Squeezing problem- both vertical and lateral. The design has been changed with increased deformation tolerance ( from 20 mm to 200mm now). Sturdy Support System (Twin ISMB) has been used to control squeezing. TDC- Aug'28
5. Tunnel No. 10 (5520 m) Ch 60760m to 66280 m. The Portal 1 has collapsed and shifted by about 300mm. The Work is in progress from Portal 2. Two Adits have been identified of about 128m and 140m length. TAG has been formed to review the protection scheme and explore the possibility of extending the underground portion of the tunnel towards Piphema yard. TAG to submit their recommendations by Nov'25.

**Zubza station yard:** Poor geology extensive slope protection works have to be done. TAG has been formed to review the design and drawing submitted by AECOM for a design life of 120 years.TAG to give their recommendation by Nov'25.

- Works in Meghalaya portion 2.25 km suspended since 27th May-2017 due to resistance by Khasi Students Union (KSU). KSU demands for introducing inner line permit to check infiltration into their state.
- In-spite of repeated request by Railway, DC/Ri-Bhoi district has not given permission to resume the works at Byrnihat area (Meghalaya).
- Several correspondences & meetings held with State Govt. of Meghalaya, KSU and officials of N.F. Railway for resumption of work. Matter has been discussed in various PRAGATI meetings held since Aug'2020. Meetings have been held with CS/Meghalaya and with DGP/ Meghalaya also. This issue has been raised by this Railway in DoNER meeting held on 08.10.2022 at Guwahati and with Hon'ble Minister/ DoNER on 11.04.2023 at Agartala. Another meeting held by Cabinet Secretary (co-ordination) on 24.04.23. But, the matter is still unresolved.
- Chief Secy. Govt. of Meghalaya have been requested vide letter No. W/247/CON/Tetelia-Byrnihat dated 03.07.2023 & 18.01.2024 to take up the matter with KSU for early resolution.
- Matter has been pursued regularly at the level of Chief Secretary and Chief Minister, Meghalaya, but issues not resolved till date. Work could not start in Meghalaya portion due to want of permission from State Govt.
- On 20.12.2024 a letter was given to DC/ Ri-Bhoy for arranging a meeting with NCOs of Meghalaya in connection with resumption of work in Meghalaya state.
- On 11.04.2025 a meeting was held between GM/Con and KSU, Meghalaya in connection with resumption of works in Meghalaya state.
- On 31.07.2025 again a letter was given to DC/Ri-Bhoi for returning the amount deposited against zirat compensation for land acquisition between Byrnihat- Lailad of Byrnihat-Shillong New Line Project.
- The work of Meghalaya portion could not be commenced due to agitation by Khasi Students Union. A proposal for new station Moupur in Assam, around 2.225 Km before Byrnihat has been sent to Rly. Bd. in May 2025 for approval. State Govt. is being pursued to commence the work in this portion.

- Restoration of International Railway route from **Radhikapur (India)** to **Birol (Bangladesh)** has been completed on 14.09.2016 by Rolling Engine between Radhikapur(India) to upto international border of Bangladesh (303 Km length). With an objective to resume trade and commerce with neighbouring country Bangladesh and Nepal as per SAARC summit, Indian Railway have constructed the railway track connecting **Radhikapur(India) and Birol(Bangladesh)**. The Railway track connecting Dhaka via Dinajpur District of Bangladesh to Kolkata via Radhikapur was built in 1857 and it was a metre gauge track. Railway connectivity between Indian and Bangladesh was in service upto 1st April of 2005. It is learnt that passenger train service through this route was operational from 1857 to 1948. Bangladesh Railways had also converted the track MG to BG from Dinajpur to Birol three years ago.
- In **Raiganj-Dalkhola** section verification of land plans at site and preparation of zirat report is in progress with revenue authorities.
- GM/Con/NFR attended a meeting with Chief Secretary, Govt. of Bihar at Patna on 10.08.2018 for early handing over of Raiganj-Dalkhola section land.
- This project has been kept in abeyance by Railway Board vide DO L/No 2019/W-1/Genl./Budget/1 Dated 24.09.2019. Rly Bd. instructed that no further expenditure & execution on this project to be made till further orders.

### 6. Issues of Concern

1. Work of GHY-KYQ lies in the Metropolitan city of Guwahati & there is involvement of state authorities for traffic diversion. Plan is approved by State PWD dept
2. Site availability in GHY-KYQ is dependent on road Traffic diversion. State authorities have not agreed to give all 8 LC location in one go in verbal discussion thus execution of RUB/ROB/LHS will be done as per approved diversion plans.
3. There is restriction in movement of heavy Vehicle, and machineries in the city during day time.
4. There is problem of encroachment in the alignment also there are certain religious structures which are coming in the alignment, which needs to be removed
5. There is a hill cutting involved which is also adjacent to the track, and the work can only be taken up in traffic block which is also never certain even in the corridor blocks, thus, would affect the progress largely.
6. There is problem of **encroachment** in the alignment also there are certain religious structures which are coming in the alignment, which needs to be removed.
7. Work of GHY-KYQ lies in the Netropolitan city of Guwahati & there is involvement of state authorities for **traffic diversion**. Plan is approved by State PWD dept.
